

FILE

During the past 18 months, it has been our good fortune and privilege to be associated with David Scott of Decorators Depot, in Rancho Mirage, California.

Mr. Scott and his contractors were responsible for a major upgrade of the USSS command post at the Ford Protective Division in Rancho Mirage. Changes included custom designed cabinetry for the CP to house the new alarm system, floor covering, paint, etc. His company also totally remodeled the kitchen that included new cabinets, counter top, appliances, and plumbing fixtures.

We found Mr. Scott to be the ultimate professional to work with during the project. His contractors paid attention to detail, were timely with their assigned tasks, and flexible with design changes that had to be made during the project. The total project had to be done during President and Mrs. Ford's time away at their summer residence. We were on a very tight time schedule and Mr. Scott and his crew worked within the allotted time frame perfectly.

Since the above mentioned project, we have reached out to Mr. Scott for additional projects, and will continue to do so in the future. His professionalism, integrity, and personality make him and his company what they are.

Respectfully,

A handwritten signature in cursive script that reads "Leland M. Archibald".

Leland M. Archibald
Supervisory Special Officer
United States Secret Service
Ford Protective Division
